

GIVING THROUGH A *Charitable Gift Annuity*

Gift annuities are created with a permanent transfer of cash or property (minimum deposit of \$5,000) and can be set up to provide payments to one or two people. Married couples can even create a gift annuity that will provide for them while they are living and continues to support the surviving spouse after the other's death.

BENEFITS OF A CHARITABLE GIFT ANNUITY

- Designate future support for a church, agency, program, or institution
- Receive a current income tax deduction
- Receive annuity payments for life
- A portion of the payment you receive will be tax-free
- Avoid a portion of capital gains tax when funding a gift annuity with appreciated stock
- Gift annuity rates are determined by your age when the gift is created; these rates will not change
- Depending on your age, the gift annuity can increase present cash flow
